Release Plan
Product: NoteQuest
Team: Project NOTE
Release Name: NOTE 1.0
Release Date: 7/22
Revision Number: 1.3
Revision Date: 7/14/20

High-Level Goals:
- Create a web-based application that allows for the storage of notes
- Allow for users to be able to upload and share notes with ease
- Allow only users with UCSC emails to be able to access our application
- Organize notes by class and professor
- Allow for users to rate other people's notes (by upvoting them)

User Stories for Release:

Scale : 1, 3, 5, 7, 10

- Sprint 1
    - As a student, I want to be able to upload notes (7)
    - As a student, I want to be able to query information about the notes that are uploaded in the app (10)
    - As a student, I want to be able to access a website to store notes and access them (5)
    - As a student, I want to be able to upload the metadata of the files I uploaded to my database (5)
    - As a student, I want to be able access other students notes (5)
- Sprint 2
    - As a student, I want to be able to access other students notes (5)
    - As a student, I want to upload my notes to a specific class and professor (7)
    - As a student, I want to be able to create a folder for my class (3)
    - As a student, I want to only share my notes with other students from UCSC (10)
- Sprint 3
    - As a Developer, I want to ensure that my product is working properly (7)
    - As a user, I want a nice fluid U.I. where I can navigate all notes and upload (10)
    - As a team, we want to create a proper demonstration. (3)
    - As a user, I want to be able to upvote notes that I think are helpful (5)
    - As a user, I would like to choose between a darker and lighter theme. (1)

Product Backlog:
- As a team, I want a well designed unit testing environment for testing front end functionality

- As a user, I would like to be able to report inappropriate documents (3)
- As a user, I want to be able to see all the uploaded documents by a specific user (3)
- As a user, I want to have my classes organized by quarter in addition to professor (3)
- As a professor, I want some way to delete notes that I may not want to share with students publicly anymore (7)
- As a student, I want to be able to leave comments on notes (5)
- As a student, I would like to be able to update my own notes (3)
- As a student, I would want to be able to update other people's notes with their given permission (7)
- As a student, I would like to have access to have access to other student's contact information to be able to get in touch with them (10)
